BOARD OF TRADE DELAYS ADVERSE

Recommendation Against Public Service Body Goes Over.

COMMITTEE AGAINST PROPOSED BOARD

To Act on Amendment Directed at Rival Organi-

zations.

The Board of Trade has decided not to consider at its meeting Friday night the recommendation of its transportation committee that the board go on record as opposed to the proposed public service commission in the District.

After a conference between Gen. George H. Harries, president of the board; William John Eynon, secretary, and Alex Britton, chairman of the transportation committee, the officers decided it would not be wise "at this time" to present the adverse recommendation.

It was given out this morning that the reason for this action was that a public service bill is now before Congress and that Congress is better equipped to study the problem and arrive at a conclusion than the Board of Trade

Amendments Up.

The first thing on the program Friday night will be the amendments posted by Oscar W. White, H. C. Grove, Edwin K. Staley, Victor J. Becker, H. C. Bangs, and Dr. Frank E. Gibson, providing that past presidents of the board shall be additional members of the board of directors, that a member shall be eligible for election as director as many times in succession as members care to nominate him, shall be eligible as an officer and director, who is an officer or director of the Chamber of Commerce, Federation of Citizens' As-sociations, or any other like organiza-

To Take Up Reports.

The transportation committee recommend that the construction of new lines of street railways within the District shall be done by the present operating companies only.

The report of the committee on public health will be presented. Comfort stations, diseases, suicides, milk, and grade crossings are covered in this re-

Leach Is Adrift in Niagara in Barrel company to furnish a sufficient number

NIAGARA FALLS, N. Y., June 28 .-Bobby Leach, celebrated as a navi-gator of the lower Niagara river, while attempting a trip through the Whirlpool rapids this afternoon in a barrel, met with a mishap that will probably cost him his life. The barrel turned over suddenly after Leach had entered it, the air hole being submerged. In this posi-tion it floated into the rapids. Efforts to secure the barrel and release Leach have so far been fruitless.

Dictagraph Upheld As Trap for Bribers

COLUMBUS, Ohio, June 28.—The use of the dictagraph as a means of entrapping bribe-seeking legislators, was today upheld by Judge Kinkead in the trial of Senate Sergeant-at-Arms Rodney Diegle, charged with abetting senators in the solicitation of bribes. The ruling was handed down in jury instructions to acquit Diegle on the ground that his alleged solicitation was merely part of an entrapment, in which the dictagraph was used, and did not constitute a bona fide attempt at bribe-

seeking. Judge Kinkead held that the State was justified in using the dictagraph. New Haven Official

BOSTON, June 28.-Vice President Benjamin Campbell, of the New York. New Haven and Hartford railroad, to day pleaded not guilty to the recent Federal indictment charging the making of concessions to the Elk Farm Milk

Pleads to Indictment

Company.

The milk company was indicted jointwith the New Haven road and pleaded guilty a few weeks ago, and was fined \$5,000.

Tremendous Power of Corporation.

MANY INDUSTRIES ARE AT ITS MERCY

Its Ability to Control and Fix Prices Is in Many Cases Believed Absolute.

By JUDSON C. WELLIVER.

The United States Steel Corporation is the most powerful industrial organization in the world.

iron, steel, coke, coal, cement, and railroad transportation to an extent that no other industrial power controls within its own realm.

This complete control gives it absolute power of making prices and imposing them on rivals, and this

Comparison of the conditions before the trust was formed with conditions since demonstrates the immensity of the power thus wielded.

Study of the actual values of the properties owned by the corporation and comparison of those values with capitalization and earnings before the corporation was formed shows that the present capitalization of about \$1,400,000,000 contains a large percentage of water.

The corporation controls 80 per cent of available deposits of iron ore.

Dominates Coke Business

public utility commission, so far as reg- try. It makes over 70 per cent of the steel rails, 90 per cent of tubes, and 80 per cent of tin plate and sheet iron.

which is familiar to everybody in the Railroad transportation in the regions can " where the corporation conducts its minsioners power "to regulate and control ing and manufacturing enterprises, is ment to be used by the Metropolitan cases, this is possible through the finan- ness." cial power of the corporation's backers, in others through the fact that directors of any conference between the head of in the corporation are in control of the the Arbuckle and American companies through the fact that the corporation trality." has built and operates its own rail-

Gobbles Cement Business

The cement business, which in recent time has become a serious rival to steel in supplying structural material, has been gathered in by the corporation, much as the Sugar trust seized the beet sugar industry.

Such are a few of the facts about the United States Steel Corporation, which will be given to the world on Saturday, in the long-awaited report of the Bureau of Corporations on its study of

the iron and steel industry. Not yet completed in some of its deincluding the crisis which brought the formation of the present corporation. The extent of the bitter, unrestrained competition in the last decade before the corporation was formed, will be pre-

sented in striking ways; the effect on prices, profits, and the stability of the business will be disclosed in most ef- Reapportionment Bill

To Describe Carnegie Czardom. The part of Andrew Carnegie and the Carnegie school of Pittsburg milforce and even dramatic effect. Czar of the steel business, Carnegie threatened his own road to the Atlantic tide line. He was prepared, in short, to make himself as great and supreme a power as the corporation has since become His rivals—iron, steel, coal, coke, and railroad people—fearful of the effect of such a monopoly in his hands, appealed such a monopoly in his hands, appealed to J. Pierpont Morgan to consolidate the industry in order to make solid conditions possible. This started the trust. President Taft's grasons for hurling this report upon Congress at the present time have only been conjectured. The Bureau of Corporations has been at work five or six years on this inquiry. Those who have done the work believe it will stand as the master achievement of the Bureau of Corporations.

To "Beat Out" Democrats. It is supposed that the sudden determination to force the steel and iron issue was the result of a desire to "beat the Democrats to it." The Stanley

committee is investigating, but it cannot possibly, in the nature of things, produce anything so detailed and valuable as the Bureau of Corporations report. The President is getting ready to capture just as much credit as possible from the coming revision, and Demo-crats are worried about the prospect that he wil! get more than they do. The Administration, however, has the The Administration, however, has the better of the race for popular credit. It can not only recommend legislation, but in this case it can prosecute; and that is what it is getting ready to do. The Department of Justice is looking into the Steel Corporation, with a view to determine the line on which prosecution shall be undertaken. The belief now is that action will be started in time to have the fullest political effect toward rehabilitating the trailing fortoward rehabilitating the trailing for-

Smith's Report to Show Official of the Arbuckles, Independent, Tells of Costly Feud.

WAR BROKE OUT IN **COFFEE BUSINESS**

Now There's a State of "Armed Neutrality," Witness Tells Congress Probing Committee.

A sugar war between Arbuckle Brothers, an independent company, and the American Sugar Refining Company, the trust, in which during It dominates the great interests of a part of 1903 and 1904 the Arbuckle people lost \$1,250,000, was told the Hardwick Sugar trust committee today by W. G. Gilmore, of Brooklyn, manager of the Arbuckle sugar in-

"We had to cut our prices about 25 points in order to get a market," power is used in the most effective said Gilmore. "We finally practically ran the American out of Ohio and West Virginia."

Gilmore asserted that when the Arbuckles went into the sugar business the American Sugar Refining Company started in the coffee business at Toledo, Ohio, to fight the Arbuckle coffee business.

Trust Abandons Fight.

Their purpose was to discredit package coffee." Gilmore said. "They wanted to run the Arbuckles out of the coffee business. The American ran this coffee plant into the ground in five years, and I believe in their fight on us lost most of their \$15,000,000 surplus When this was mostly gone they let

WILLIAM H. BRIGHT

First to Introduce Bill for Suffrage in This Country.

William H. Bright, who has the distination of having into faced the bill for woman suffrage in any State legislature in the country, is critically ill at his home, 113 G street northwest, He is eighty-five years old.

boasted of a 30,000 population.

of the Government, Mr. Bright has not husband. been in the service continuously. He was first appointed to a clerkship in the War Department, and during the civil war he was in the quartermaster general's office. At the close of hostilities he was made a special mail agent, with headquarters in Salt Lake City. Mr. Bright traveled extensively in the

West for a number of years, and finally moved to Wyoming. When that State was admitted to the Union he was elected to the Legislature, one of his first acts being the introduction of a bill for woman suffrage. Twenty-five years ago Mr. Bright returned to Washington, and was ap-pointed to a position in the folding room at the Capitol. Later he was trans-ferred to the Government Printing Of-Rescue a Drowning Man fice, where he has been employed for the last sixteen years. He is a member of the Oldest Inhabitants' Arsociation of the District.

Stricken with paralysis about three weeks ago, he has grown steadly weaker.

Knox and Bryce Confer Daily on Arbitration for household expenses.

Secretary Knex of the State Department and James Bryce, British Great Britain.

The answer if the British government to the general arbitration proposal of this country has been received with suggested changes. The general proposal is acceptable. Secretary Knox and Ambassador Bryce will continue their negotiations by mail when Mr. Bryce is located in the summer embassy, on the North Shore of Massachusetts. It is expect-ed to have the arbitration pact in shape to submit to the Senate before the close of the present session. The Senate will act on the issue separate-

Mrs. McManigal Victim

LOS ANGELES, June 28.-Bitter denunciation of the action of the prosecutin gattorney and his assistants is contained in a statement by Clarence S. Darrow, Joseph Scott, Lecomte Davis, and Job Harriman, attorneys for Mrs. Ortic R. McManigal, issued as the result of her "third degree" examination by the prosecution yesterday. "The action of the district attorney's office," says the statement, "under the subterfuge that contempt proceedings

were to be instituted because of her refusal to testify against her husband and the McNamaha brothers, in torturing her for an hour and a half to such a nextent that she finally fainted physician had to be called to revive her, was the acme of cruelty."

To Amend Constitution In Interest of Birds

Senator McLean of Connecticut fu-troduced in the Senate today a bill for an amendment to the Consitution giving Congress the power to protect migratory birds and regulate the kill-ing of such birds. The matter is one in which Senator McLean is much in-terested and the amendment has the approval of various societies interest-

LORIMER PROBERS WILL FORCE HINES

Central Figure in Inquiry Must Tell His Story Before Others Testify. Takes Stand Tomorrow.

TO SHOW HIS HAND

CULVER FLATLY CONTRADICTS "BARREL OF MONEY" STORY

By JUDSON C. WELLIVER.

Sensations will begin to "break" tomorrow in the Lorimer inquiry when Edward Hines, alleged financier of the Lorimer election, will go on the stand before the Senate inquisitors.

Hines will be put on at this time because the committee wants to develop his story early. It is believed he could tell a satisfactory story more easily if he came at the end after all the other witnesses had given their tales. The committee has decided to hear him early, and then use later witnesses to break down his story.

Three days ago the committee adopted a rule that all witnesses save the one on the stand should be excluded from the room. Yesterday Hines asked to be allowed to hear the testimony of Funk, and was permitted to be present. He remained after Funk left the stand and heard all the other witnesses of the day, and was on hand bright and early today to hear some more, evidently being of the opinion that the committee had suspended the exclusion order permanently.

HER ALLOWANCE

Ends Meet.

living, supporting an automobile and Mr. Bright is a native of Virginia, but chauffeur, and her husband's serious moved to the District when a young Piness were reasons given today by of the telephone company that handled man, and remembers when Washington Mrs. Stilson Hutchins for asking increase of her monthly allowance of Although one of the veteran employes \$1,000 from the \$4,000,000 estate of her

at Springfield. These records have For several hours Mrs. Hutchins gave intimate details of her mode of living, expenses, and domestic management. Fanning herself vigorously and anwering many questions with evident show of indignation, Mrs. Hutchins testified all morning in support of her

request for an increased allowance, "I got \$800 and \$1,000 a month and sometimes only \$600," said Mrs. Hutchins, when asked what her allowance had been. "The year of the Roosevelt ernor Deneen was purported to be the panic it was reduced to \$600 for a time," she said.

When asked if the allowance was intended to cover all her bills and expenses, Mrs. Hutchins said:

"What, cover all my expenses? distinctly not." Auditor Dent refused to hear Mrs.

Hutchins' testimony of circumstances surrounding the making of the deed of trust in March, 1910, giving her \$1,000 a month, as to whether this was a sole, the matter by the testimony of both separate "pin money" or intended also "I've had an apartment in Paris near-

ly six years," Mrs. Hutchins said, explaining part of her expenses. "I pay ambassador, are in daily consulta- my chauffeur more than my cook," she tion over the pending arbitration continued. "I find my car costs me treaty between this country and much more than I think-tires, repairs, and painting. Then, too, wages of servants are higher than three years ago. Food, marketing, everything costs more. In one month this year the expenses o the household were \$2,500," Mrs. Hutchins said that sum did not

include charities, theater tickets, phone-graph records for Mr. Hutchins, and graph records "necessaries Mrs. Hutchins told of making frequent trips to Europe, sometimes alone and sometimes with Mr. Hutchins. She said she could not remember details of exof such trips, because she

Of "Third Degree" Case MORSE LOSES FIGH

Judge Decides Habeas Corpus Case Ad-

ATLANTA, Ga., June 28.-Charles W. Morse, the former "ice king," lost another round in his battle for freedom here today, when Judge Newman, of the circuit court of the United States, denied his application for a writ of Morse's attorneys immediately gave notice of an appeal.

Taft Names Laning For Naval Surgeon Penrose, Pa

President Tast sent to the Senate today the nomination of Richard H. Laning, a Washington man, for a place as an assistant surgeon in the navy.

Mrs. Hines Present.

The charming Mrs. Hines, in her prettlest pink gown, picture hat that looked like a bower of popples, and that was draped with a lace curtain convenience fo rretiring purposes in the presence of photographers, was present all day yesterday and again today. Some of the members of the committee were impressed that her presence under the circumstances might justify objection

but nothing was done about it. Hines, himself, however, failed to make good in his effort to remain during today's hearing. The committee held an executive session, admired Mr. lumberman's lawyers. Hines took his hat and left. Mrs. Hines remained.

Hipes' Evidence. Hines' examination will be the most important development to date. The committee, however, is on the trail of which arrangements were made today will involve the production of records Chicago and the mysterious "governor"

never been brought into an investigation before, and the committee ordered them sent for at once. It is expected that the records and the operators at Chicago and Springfield will make possible to prove just who talked from Springfield that dayit was the day before Lorimer was

elected. Wirt Cook, the Duluth lumberman, yesterday told the committee that Govperson at Springfield. The committee has a tip that this was mere pretense; that while Hines pretended to be talking to Deneen, he was really talking to Lorimer and using the name of Densen as a blind.

Important Point.

To have this point cleared up is highly important in several ways. It has to do with the political future of Governor Deneen, who has been drawn into Cook and former Senator Hopkins, in a way calculated decidedly to harm him. A telegram came from Governor Deneen today, saying he could not come to Washington at once, because of legis-lative matters at Springfield, but will come as soon as possible. He has here-tofore denied most positively that he talked to Hines over the phone. For-mer Governor Yates has done the same. Senator La Follette, in his speech last sentitor La Fonette, in his speech last session, declared there was reason to believe that Hines talked to Lorimer, not Deneen, over the phone. The committee is going to get the truth if pos-

Today's sitting drew a full house, and the committee room was crowded early. Culver on Stand. Rush Cuver, of L'Anse, Mich., a law-

er and lumber man, formerly mayor of
